

www.sixsigma.org.hk

The Six Sigma Society of Hong Kong (a non profit organization) serves the needs of six sigma practitioners and enthusiasts. The society provides the resources these individuals and their organizations need to deploy implement and benefit from the use of the Six Sigma breakthrough methodology.

The society is endorsed by and draws upon the experience and support of the councilors of the International Academy for Quality Certification or IAQC. The Board of Councilors of IAQC is leading and recognized quality and productivity professionals in the world. The founders are Donald Dewar from the United States of America, David Hutchins from the United Kingdom and John Man from Singapore. The IAQC (a non profit organization) endeavors to enable organizations and people to obtain certification for quality and people development programs. The experience and competencies of the councilors are offered to any individual and organization in the world with particular attention to emerging economies and developing countries so that they may be able to achieve world-class standards in quality management and development, inexpensively.

The Six Sigma Society of Hong Kong is intimately linked to IAQC. The society obtains international recognition through IAQC for all its initiatives and efforts. It is with this confidence that the society is established.

VISION

The Six Sigma Society of Hong Kong aims to become the leading and reliable resource center for Six Sigma practitioners, enthusiasts and their organizations so as to strengthen the practical application of the Six Sigma breakthrough methodology that is internationally recognized and consulted.

MISSION

The Six Sigma Society of Hong Kong will endeavour to fulfil all its PRACTICAL objectives for its members and their organizations and enable them to confidently and visibly apply and obtain measurable benefits from the Six Sigma breakthrough methodology.

PRACTICAL AIMS

1. To POSITION the six sigma practitioners in Hong Kong as leaders and experts in their industry worthy of international recognition.
2. To serve as a RESOURCE base for practitioners that draws from the experiences of the members. The resources provided may include advice, best practices, assistance, training and development, information and materials to further the practice of Six Sigma in organizations.
3. To ADVOCATE and promote the practical application of the Six Sigma breakthrough methodology by sharing experiences and demonstrating the applications in members' organizations.
4. To CONTRIBUTE to the knowledge and practice of Six Sigma by publishing papers and literature.
5. To enable six sigma practitioners and enthusiasts to obtain TIMELY support from a network of certified six sigma individuals for the practice of the Six Sigma methods in organizations.
6. To INVOLVE in local and international learning situations by presenting the experiences and innovations of the members that expand the doctrine and practice of Six Sigma in Asia.
7. To CELEBRATE the success of members or their organizations in implementing the Six Sigma best practices and achieving breakthrough results.
8. To ACQUIRE the latest developments on the doctrine of Six Sigma so as to update and enable the members to reach new levels of professional expertise.
9. To create the LEARNING community of practitioners that will get together to analyze the needs and concerns of the members and provide practical solutions that benefit the members and their organizations.

SERVICES TO MEMBERS

To achieve its PRACTICAL objectives, the society will organize regular activities throughout the year to its members. It includes but not limited to:

1. Membership list so that members can share their experience and get help from each other.
2. An online forum for members to post their questions related to Six Sigma. Council of the Society and the Honorary Advisor of the Society are committed to providing support and feedback whenever possible.
3. Gathering events once every 2 to 3 months to invite members and industry to present their Six Sigma work and for experience sharing.
4. Company visits in different industrial sectors to learn their Six Sigma implementation.
5. Electronic news about the latest development of Six Sigma at the Society web site.
6. Free or discount for paid events organized or supported by the Society.
